

## UNIT – IV

### Enumeration & Exploitation

#### PART – A (Short Answer Questions)

S.No	Questions	BT	CO	PO
1	Define Enumeration.	L1	CO4	PO2
2	What are Enumeration Techniques?	L2	CO4	PO1
3	What is Soft Objective in Enumeration?	L2	CO4	PO1
4	What are the Elements of Enumeration?	L2	CO4	PO1
5	Define Exploitation.	L1	CO4	PO1
6	What is Intuitive Testing?	L2	CO4	PO1
7	Explain Evasion Techniques.	L2	CO4	PO1
8	What are Rootkits?	L2	CO4	PO1
9	Define Password Cracking.	L1	CO4	PO1
10	What is War Dialing?	L2	CO4	PO1

#### PART – B (Long Answer Questions)

S.No	Questions	BT	CO	PO
11	Explain Enumeration Techniques used during penetration testing.	L3	CO4	PO2
12	Discuss the Elements of Enumeration and their significance.	L2	CO4	PO3
13	Explain how Enumeration prepares the tester for the next phase.	L3	CO4	PO2
14	Describe Intuitive Testing and Evasion Techniques.	L3	CO4	PO1
15	Explain Password Cracking techniques and preventive measures.	L3	CO4	PO2
16	Discuss Rootkits and their impact on system security.	L3	CO4	PO3
17	Explain Exploitation of Operating Systems and Applications.	L4	CO4	PO2
18	Discuss Network Exploitation and Service-Based Attacks.	L4	CO4	PO1
19	Explain War Dialing and its relevance in security assessments.	L3	CO4	PO2
20	Describe various Areas of Concern during Exploitation.	L4	CO4	PO3
