About the Institute

NRCM is promoted and managed under the inspiring and dynamic Chairmanship of Sri. J. Narsimha Reddy and a fleet of dedicated members. This is the first institution belonging to Jakkula Educational Society (J.E.S.) was established in 2007 to serve the people of this backward region of Telangana. This institution is developed strictly in accordance with the provisions of governing rules and regulations of the approving bodies. We, at N.R.C.M., aspire to establish a system of quality assurance continuously evaluation, monitoring the quality of education and training imparted at the Institute. We strive for improvising teaching and learning process to make N.R.C.M. the centre of Excellence.

This Institute is built upon the spacious campus, aesthetically and articulately designed with lush green gardens and landscape. The ideal architecture buildings in the campus add to the overall beauty and elegance of our Institute. It provides an ideal ambience to the budding engineers to shape their career, by imbibing knowledge under the careful observation of the Principal and the dedicated faculty. This Institute is ideally located at Maisammaguda, Secunderabad, Ranga Reddy District and is just at a distance of 15 km from Secunderabad.

Department of Civil Engineering

The Department of Civil Engineering was started with a sanctioned intake of 60 in the year 2013. The department aims to enrich the knowledge of students in both theory and practice with a team of highly qualified faculty with rich experience in the diversified streams of Civil Engineering. The department of Civil Engineering is equipped with state-of-the-art laboratory facilities having advanced equipment's and machineries operated by experienced Technicians and plays a vital role in training the students through In-plant and industrial visits to tackle the field problems.

Department Vision :

To become a centre of Excellence that brings out civil engineers with high technical competencies and promotes high-end research to meet the current and future challenges in civil engineering.

Department Mission :

- To produce civil engineers of high calibre, technical skills, ethical values to serve the society and nation through professional engineering practice.
- To inculcate critical thinking and to develop solutions for complex engineering problems through rigorous teaching, learning and assessment process.
- To promote innovative engineering knowledge through lifelong learning, to face the broadest context of technological change

Introduction to the Programme :

Faculty Development Program on “Recent Avenues in Civil Engineering” is an attempt by the Department of Civil Engineering at Narsimha Reddy Engineering College, Hyderabad to promote the understanding and use of Recent avenue technologies in various Civil Engineering Streams. The F.D.P. is being organized to disseminate the new avenues of research scope in the various areas of Civil Engineering. This will boost the current researchers, academicians and field engineers to take up the current research and develop new technology in order to meet the challenges ahead in Civil Engineering.

Objectives and Course Contents:

This Faculty Development Program (FDP) aims to bring together academicians, researchers, practice engineers and scholars in various fields of Civil Engineering and update/share the knowledge and explore modern cutting-edge new avenues in the area of civil engineering. Keeping this in mind the following FDP contents is proposed

- Advanced Surveying Technologies
- Advances in Concrete Technology
- Highway Engineering and Future Transport Construction Technology and Developments
- Recent Technology in Geotechnical Engineering.
- Corrosion on RCC Structures
- Urban Expansion and its environmental effects.
- Finite element analysis in Geotechnical Engineering.
- Earthquake resistance in structures.
- Climate change and its impact on water resources.
- Environmental Impact Assessment.
- Post tensioning of structural elements.
