

WORK SHEET  
UNIT-V

MCQS

1. Risk is
  - A) Uncertainty
  - B) Certainty
  - C) Code
  - D) None**Answer: A**
2. Reactive strategy is
  - A) After problem
  - B) Before problem
  - C) During coding
  - D) None**Answer: A**
3. Proactive strategy is
  - A) Before problem
  - B) After problem
  - C) During testing
  - D) None**Answer: A**
4. Risk identification means
  - A) Finding risks
  - B) Coding
  - C) Testing
  - D) None**Answer: A**
5. Risk projection means
  - A) Estimation
  - B) Coding
  - C) Testing
  - D) None**Answer: A**
6. RMMM stands for
  - A) Risk Mitigation Monitoring Management
  - B) Risk Model
  - C) Risk Method
  - D) None**Answer: A**
7. Quality assurance ensures
  - A) Quality
  - B) Code
  - C) Output
  - D) None**Answer: A**

Your roots to success...

WORK SHEET

8. Software reviews are

- A) Evaluation
- B) Coding
- C) Testing
- D) None

**Answer: A**

9. FTR stands for

- A) Formal Technical Review
- B) Final Test
- C) File Test
- D) None

**Answer: A**

10. Reliability means

- A) Consistency
- B) Code
- C) Output
- D) None

**Answer: A**

11. ISO 9000 relates to

- A) Quality standards
- B) Code
- C) Testing
- D) None

**Answer: A**

12. Risk refinement means

- A) Detailed analysis
- B) Coding
- C) Testing
- D) None

**Answer: A**

13. Statistical SQA uses

- A) Data
- B) Code
- C) Output
- D) None

**Answer: A**

14. Quality concepts include

- A) Reliability
- B) Maintainability
- C) Efficiency
- D) All

**Answer: D**

15. Risk management includes

- A) Identification
- B) Analysis
- C) Monitoring

WORK SHEET

D) All

**Answer: D**

**Fill in the Blanks**

1. Risk is \_\_\_\_\_
2. Reactive strategy is \_\_\_\_\_ problem
3. Proactive strategy is \_\_\_\_\_ problem
4. Risk identification means \_\_\_\_\_ risks
5. Risk projection means \_\_\_\_\_ risks
6. RMMM stands for \_\_\_\_\_
7. Quality assurance ensures \_\_\_\_\_
8. FTR stands for \_\_\_\_\_
9. Reliability means \_\_\_\_\_
10. ISO 9000 is a \_\_\_\_\_ standard

**Answers**

1. Uncertainty
2. After
3. Before
4. Finding
5. Estimating
6. Risk Mitigation Monitoring Management
7. Quality
8. Formal Technical Review
9. Consistency
10. Quality
